WELCOME

Less guessing. One simple plan.

Hi there!

You want to take care of your skin, but figuring out where to start, what goes first, and how often to use everything can feel like another task. This calendar makes it easier.

Each day has two pages: the front shows your morning and evening steps, and the back has the full recipe. Follow along and check off each step as you go.

Over these 21 days, you'll make a little room for yourself and explore a routine that fits your life. Take it one day at a time.

You don't need more information.
You need fewer decisions.

My commitment to myself

I, _____ commit to making time for myself for 21 days.

My start date is _____ Signature _____

BEFORE YOU BEGIN

How to use your calendar

Four simple steps.

1 Do a 24-hour patch test

Follow the Day 0 instructions. Wait a full 24 hours before using a new mixture.

2 Shop for the week

Your list is coming up. Buy just what you need for the week.

3 Follow the day's page

Front: your morning and evening steps. Back: the complete recipe.

4 Check it off and rate your experience

Check the boxes and jot down how your skin looked and felt. Keep it simple.

HOW TO READ EACH PAGE

Morning
A five-minute ritual to start your day.

Evening
A ritual that changes from day to day.

Today's featured recipe
Your special recipe, with full instructions on the back.

Prepare today
Gather what you need, then make each homemade mixture fresh for one use.

Checkbox
Check it off when you finish each step.

Light day
Fewer steps. Taking a break is part of caring for yourself, too.

SAFETY

Your skincare ground rules

Simple precautions for a comfortable routine.

Sunscreen, every day

Apply broad-spectrum SPF 30+ every morning, rain or shine. Reapply as directed. No homemade recipe replaces sunscreen.

Clean hands, clean tools

Wash your hands and use clean, dry bowls, spoons, and containers.

Make it fresh

Use homemade mixtures immediately and discard leftovers. For products you keep, choose commercially formulated creams and lip balms; follow their labels.

Sensitive or broken skin

Avoid broken or irritated skin and known allergens. If burning, itching, or redness occurs, rinse off and stop using the mixture. Consult a dermatologist if symptoms persist, or before starting if you have a skin condition.

Important: this planner is for cosmetic care and general information, not medical advice. Results vary, and no particular change in appearance or feel is guaranteed. It does not replace a dermatologist's guidance. Always do a 24-hour patch test before using a new ingredient or mixture. A patch test cannot rule out every reaction.

⚠ 24-HOUR PATCH TEST

1. Apply a small amount of the finished mixture you plan to use—such as aloe vera gel or rice water—to a small area on your inner forearm. Check each new mixture separately.
2. Follow the intended application time, rinsing off any rinse-off mixture as directed. Watch the area for 24 hours before using the mixture more widely.
3. If you notice itching, burning, redness, or swelling, rinse off the mixture and do not use it again. No reaction during this check does not guarantee that a mixture will suit your skin.

For cosmetic care only; this planner is not medical advice. Results vary. Use broad-spectrum SPF 30+ every day. If irritation persists, or you have a skin condition or concerns about an ingredient, check with a dermatologist.

Oat Cloud Mask

TIME	HOW OFTEN	USE BY
Up to 15 minutes	**1 to 2 times per week, if comfortable**	**Use immediately; discard leftovers**

INGREDIENTS

- 2 tbsp pasteurized milk or plain, unsweetened plant-based milk

⚠ **Caution:** Skip this recipe if you are allergic to oats, dairy, or any ingredient in your chosen milk. Do a 24-hour patch test before first use: apply a small amount to your inner arm, rinse after the intended wear time, and watch the area for 24 hours. This does not rule out delayed reactions; AAD guidance recommends testing new skincare products for 7 to 10 days. Rinse off and stop using if irritation occurs. Ask a dermatologist before trying homemade skincare if you have a skin condition, and seek advice for persistent irritation.

★ FEATURED RECIPE

Fresh Glow Aloe Gel

TIME	HOW OFTEN	USE BY
10 to 15 minutes, following the product label	**3 to 4 times per week, if comfortable and allowed by the label**	**Use dispensed portions immediately**

INGREDIENTS

- Up to 2 tbsp packaged, fragrance-free, alcohol-free aloe vera gel
- Up to 1 tsp Korean Glow Water: store-bought hydrating toner, applied separately

METHOD

1. Wash your hands. Choose aloe gel labeled for facial use. Follow the package directions.
2. Dispense only enough gel for a thin layer into a clean dish.
3. Keep the toner separate. Do not stir it into the gel.

How to use: Apply a small amount of toner to clean face and neck; let dry. Follow with a thin layer of aloe gel, avoiding eyes and lips. For a rinse-off step, leave on for 10 to 15 minutes only if the label allows, then rinse with cool water. Leave on only if directed by the label.

⚠ **Caution:** Do not use gel scooped from a fresh aloe leaf or any yellow sap. Do a 24-hour patch test before first use: apply each product to a separate small spot on your inner arm, follow its wear and rinse directions, and watch for 24 hours. This does not rule out delayed reactions; AAD guidance recommends testing new skincare products for 7 to 10 days. Stop using if burning, itching, or redness develops. Ask a dermatologist about persistent irritation or use with an existing skin condition. Results vary.
